

CHILDREN FIRST

27/01/2021

THE CHAIRMAN

SHARIAH BOARD

KCB BANK KENYA

DEAR SIR,

RE – REQUEST FOR FINANCIAL ASSISTANCE

Obbitu children's home is being operated by an organization called culture information and pastoralist development herein referred to as CIPAD. The organization is a local nongovernmental organization operating in Sololo Sub County of Marsabit County. CIPAD is a child focused organization providing care and support for orphan and vulnerable children.

CIPAD runs Obbitu children's Home in Sololo town in Marsabit County. The children home was started in August 2010 with the help of Dr. Pino from Italy and other well – wishers

Over the years we continued to assist many orphans and vulnerable children (OVC) with schooling and other material needs including food, shelter, health care and clothing.

Currently, we support 306 OVC 30 of them provided accommodation at Obbitu children home and 276 as home based care staying with foster parents but we still provide for them with food at home to enable them with their education.

Obbitu children have performed very well in education, 2 children are in National schools in form 4. Currently the program supports 42 children in secondary school with fees. The program has managed to take 1 person who has graduated from the university.

The support from the donors is dwindling since the last 3 years. The Corona virus pandemic has made the situation worse for our donors in Italy. Despite being fatigued for the long years, the poor performance of the economy has greatly affected the individuals who contributed part of their income towards obbitu children home support. The lack of employment and closure of business has made well-wishers to withdraw their support.

This year 2021 Obbitu children home with a monthly budget of 1,200,000 cannot provide most services due to lack of adequate funding to make the Centre to function smoothly. If support will not come by we risk closure of the Centre where children will drop out of school and become street children

Therefore, obbitu children home request for assistance from shariah fund board in-kind or financial with whatever you can be able to provide like foods, beddings, and clothing and secondary school fees.

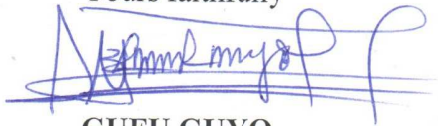

It is our sincere hope that you will extend your support to these disadvantaged children within our midst to achieve their dreams that all children are borne equal and deserve equal treatment and opportunity to attain their full potential and become responsible citizen

We are therefore asking for your help from KCB Islamic banking for assistance to help buy food, clothing, and other material needs for the children as well as paying for wages of workers our monthly expenditure is over Kshs. 1.2 million

Whatever you may be able to help us with is highly appreciated.

Thank you and be blessed

Yours faithfully

GUFU GUYO

CHAIRMAN

OBBITU CHILDREN HOME

Children service is our responsibility
