

# OBBITU ~~ORPHANS~~ CHILDRENS HOME

## MY EDUCATION JOURNEY.

Obbitu, ~~orphans~~ childrens homewas started in the year 2007. Where the aim is to support the orphans and vulnerable group within the community. It was located in Marsabit County, Sololo sub-county within RAMATA LOCATION. The project serve the entire Sololo district. Where orphans and the vulnerable groups realize their dreams through this project.

However it was a wish of almighty God through a village elder I got an opportunity to join this project in the 2010 when I was 8 years old, that time I was in standard two. Where I lost my parents at a tender age, therefore it is hard for me to get basic needs, like food on the table. It was during this time CIPAD project realize my future livelihood.

Moreover CIPAD project supported my education from primary level upto now. Not only education but also supported me at our home with basic needs, healthcare, protection and social advice from any immoral behavior.

Moreover if it were not for this project my education and my livelihood is at risk. So your help have been inspiration to me, despite my poor background and numerous girlchild challenges in our society. Just like any other child your organization takes me, throughout the journey of my education. Therefore I appreciate and once again thank for the existence of this project.

At my primary level the project was always there for me in various activities that I was in need of it such as, school uniform and stationeries. With their support I went through my primary level of education and manage to score 241. After that the project continued to follow up my progress where I was admitted at MOYXLE GIRLS SECONDARY SCHOOL. Since then the project continued to make my progress.

easier by providing me with both basic and secondary needs in my four years at MDYALE GIRLS SECONDARY SCHOOL.

In my four years of education and with the help of Almighty God and OBBITU CHILDREN'S HOME, I completed my high school and manage to get a mean grade of C minus in my KENYA CERTIFICATE OF SECONDARY EDUCATION (KCSE) examination.

In order to improve quality of my education and to fulfil my future dreams, I am kindly requesting to your organization for a support at a recognize government college, education, I have a dream of being veterinary officer and I qualify DIPLOMA IN ANIMAL HEALTH AND PRODUCTION, I would be glad if given opportunity.

Thank you for your endless encouragement and financial support, and I am looking forward to hear from you.

Yours Faithfully

KALI, GUYO WAOKO.
