ACTIVITY REPORT OF CHRONIC ILLNESS TREATMENT

INTRODUCTION

The severe drought caused death of livestock and loss of livelihood. The chronic illness patients could not afford the desired drugs to control the illness. For long time the county government did not provide the supply of the drugs to health facilities. Therefore the situation was dire for the patient who depending on these drugs for survival.

On behalf of the chronically ill patients, I extend my sincere gratitude and appreciation to you and donors for continuous support you extended to the needy poorest of the poor.

DRUGS PURCHASED

With the funds received we have managed to purchase drugs for patients with -:

1. Diabetes
2. Epilepsy
3. Hypertension

The drugs was planned to last for 1 – 2 months for each patients

The total number of patients who benefited was 65 as listed below

1. Diabetes – 8
2. Epilepsy – 10
3. Hypertension – 47

Note. This were the patient were able to reach the cases are much more than those who benefited.

COVERAGE

The services were provided at health facility level. With mobilization done in support from th facility nurse. Areas visted includeds

1. Sololo Ramata
2. WayeGoda
3. Madoadi
4. Anona
5. Sololo Makutano
6. Golole

CONCLUSION

The support was a big relief to many patient who were in dire need, if possible there is a need to extend the support while the drought persist

Thank you
Paul Guyo / Gufu
